AN AIR OF EXPECTANCY

Appears to Surround War Department Officials.

BIG NEWS IS PROBABLY DUE.

No Doubt Entertained of Its General Character.

OTHER TROOPS TO MOVE SOON.

The President Has Not Yet Decided Upon the Measure of Reward to Be Meted Out to the Heroes Who Sunk the Merrimac.

Washington, June 17.—The officials are resting secure in the belief that the marines at Guantanamo can easily maintain themselves until the troops arrive, and the worst that can be feared at Manila is not harm to Dewey, but to the Spaniards in the city.

The officials of the war department do not care to give out any specific information as to when General Shafter with his troops will land in Cuba, but from certain signs of restlessness exhibited by them it is evident they would not be surprised to have some very important news within the next few hours.

The naval officials are confident Admiral Sampson will have established cable connection within that time, so that news of the arrival of the American troop transports off Santiago should not be longer delayed than the time required for a dispatch boat to make the run of 40 miles eastward along the coast to the shores of Guantanamo harbor, where the cable will be working under the protection of Colonel Huntington's marines.

There was an exhibition of feverish activity at the war department so pronounced as to attract attention even in these stirring times. It was apparent that renewed efforts were making to complete the equipment of troops already gathered at the concentration points, and that preparations are in progress to move a number of troops.

So far, however, it is stated that no orders have gone out for the actual movement, and what has been and is being done in that direction is merely preparatory. Very likely definite action will follow a conference which Secretary Alger and the president will have with General Miles when he arrives here from Tampa.

MILES WILL DECIDE.

The general is better aware of the exact state of fitness of the troops at the southern rendezvous points than any one else, and the president and Secretary Alger in all probability will be bound by what he has to say in deciding upon the further disposition of troops.

If General Miles, as is thought to be probable, recommends a further concentration of troops on the southern seaboard, the new encampment at Fernandina, Fla., will be made ready for the reception of the additional troops. The officials have been forehanded as to this camp, profiting by the experience gained in the establishment of the two great camps at Chickamauga and Camp Alger.

The president has not yet decided what measure of reward shall be meted out to Hobson for his brave achievement. The men he led have been taken care of. Secretary Long attended to that himself because it was a matter entirely within his authority and they have been made warrant officers, the ideal of a sailor's ambition.

The navy department has sent to the battleship Massachusetts a complete new breech mechanism for one of the big 13-inch guns of that ship. This was due to a report reaching the department about a week ago that the breech of one of the guns was out of order. The new mechanism will be delivered in a day or two, and can be readily substituted for the old breech.

The condition of this 13-inch gun gave rise to rumors that the Massachusetts had suffered rather severely during the first action off Santiago and that two of the big guns were disabled and a gunner killed. There was no basis for the rumor, beyond the disordered breech mechanism referred to.

Food For "Manilla."

Kington, Jamaica, June 17.—The Spanish steamer Purisima Concepcion, loaded with food for "Manilla," left Kingston at 2 o'clock Thursday morning, taking a westward course. The colonial authorities ignored the protest of United States Consul Dent as not based on sufficient evidence, and gave the ship her clearance. She is

really bound for Cuba and will be captured.

A Soldier Drowned.

Chickamauga National Military Park, Ga., June 17.—Private Charles Shure, 19, of the Twelfth Minnesota Infantry regiment, residence Winona, Minn., was drowned while bathing in Chickamauga Creek.

To Increase Army Ration.

Washington, June 17.—Representative Davidson of Wisconsin has introduced a bill increasing the army ration by the addition of one-quarter of one pound of pure American cheese.

The Patrol Completed.

Washington, June 17.—The navy department has now completed its arrangement of the Atlantic and gulf coast patrol, and stretching from Eastport, Me., around to New Orleans, there are no less than 40 auxiliary naval craft, including swift yachts, reconstructed single-turret monitors of the civil war, tug boats, ferry boats and not a few large and well armed merchantmen.

The Philadelphia's Commander.

Washington, June 17.—The question who shall command the cruiser Philadelphia has been settled in favor of Captain George H. Wadleigh now on duty at the Boston navy yard. The Philadelphia will be put in commission about the first proximo and will be the flagship of the Pacific station. Her first cruise probably will be to Honolulu.

THEY WERE HOARSE.

But Dewey's Men Needed No Liniment or Surgeon.

Washington, June 17.—The story of the battle of Manila has been told officially by the United States Consul Williams in a report to the department of state dated on board the United States cruiser Baltimore in Manila Bay May 4.

He begins by telling how the American ships slipped into the harbor and lined up for battle off Cavite. He adds:

At about 5:30 a. m. Sunday, May 1, the Spanish guns opened fire. With magnificent coolness and order, but with the greatest promptness, our fleet, in battle array, headed by the flagship, answered the Spanish attack, and for about two and a half hours a most terrific fire ensued.

The method of our operation could not have shown greater system, our guns greater effectiveness or our officers and crews greater bravery, and while Spanish resistance was stubborn, and the bravery of the Spanish forces such as to challenge admiration, yet they were outclassed, weighed in the balance of war against the methods, training, aim and bravery shown on our ships, and after less than three hours' perilous and intense combat, one of Spain's warships was sinking, two others were burning, and all others with land defenses had suffered severely when our squadron, with no harm done itself, retired for breakfast.

At 10 a. m. Commodore Dewey renewed the battle with fatal effect with each evolution, and no better evidence of Spanish bravery may be sought than that, after the castigation of our first engagement, her ships and forts should again answer our fire.

But Spanish efforts were futile. Ship after ship and battery after battery went to destruction before the onslaught of American energy and training, and an hour and a half of our second engagement wrought the annihilation of the Spanish fleet and forts, with several hundred Spaniards killed and wounded and millions in value of their government's property destroyed. While amazing, almost unbelievable, as it seems, not a ship or gun of our fleet had been disabled, and except on the Baltimore, not a man had been hurt.

One of the crew of the Baltimore had a leg fractured by slipping and another hurt in the ankle in a similar manner, while four received slight flesh wounds from splinters thrown by a 6-inch projectile which pierced the starboard of the cruiser.

But in the battle of Manila bay the United States squadron of six warships totally destroyed the Spanish fleet of eight warships, many forts and batteries, and accomplished this work without the loss of a man. History has only contrasts. There is no coup d'etat to form a comparison. The only finish fight between the modern warships of civilized nations has proven the prowess of American naval men and methods, and the glory is a victory for the whole people.

Our crews are all hoarse from cheering, and while we suffer for cough drops and throat doctors, we have no use for liniment or surgeons.

To every ship officer and crew all praise be given. As Victoria was answered years ago: "Your majesty, there is no second," so may I report to your department as to our warships conquering the Spanish fleet in the battle of Manila. "There is no first; there is no second."

The cool bravery and efficiency of the commodore was echoed by every captain and commander and down through the lines by every officer and man, and naval history of the dawning century will be rich if it furnishes to the world so glorious a display of intelligent command and successful service as must be placed to the credit of the United States Asiatic squadron under date of May 1, 1898.

Spanish Ship Detained.

Gibraltar, June 17.—The Spanish trans-Atlantic liner San Augustine has arrived here from Cadiz for the purpose of shipping 1,800 tons of coal. She has been detained by the British authorities, pending a guarantee that the coal

is intended for purely commercial purposes.

Porto Rico Expedition.

Washington, June 17.—The war department expects to utilize approximately 35 transports in the expedition for the invasion of Porto Rico. The estimate is made that the 35 vessels will carry between 15,000 and 20,000 men with their equipments and subsistence.

All Criticisms Answered.

Washington, June 17.—The work of the Cubans in reinforcing the marines at Guantanamo, and particularly in occupying Acerraderos, is receiving unstinted praise from officials here. Secretary Quesada and the Cuban officials also take much satisfaction in these reports.

Long List of Lieutenants.

Washington, June 17.—The president announced that he would send to the senate a long list of appointments of lieutenants in the army. There are said to be between 150 and 200 of them.

Equipping Volunteers.

Chickamauga, Ga., June 17.—The work of equipping the volunteer army in accordance with the rush orders received from Washington is now the main thing now at Camp Thomas.

Peace Prospects Gone.

Washington, June 17.—A leading member of the diplomatic corps said that the departure of General Shafter's first army of invasion to Cuba put an end to all present prospects of peace. While none of the foreign representatives here has ever made peace overtures to the United States government, yet a peaceful solution has always seemed to members of the diplomatic fraternity as within the bounds of possibility, even probability, so long as the United States troops remained at Tampa and Key West.

GAVE HIMSELF UP.

A Starving Spanish Soldier Walks Into the American Camp.

Camp McCalla, Guantanamo Bay, June 17.—The brick fort and earthworks at Calmanera at the end of the railroad leading to the city of Guantanamo were demolished by the bombardment of the Texas, Marblehead and Suwanee. The warships opened fire at 2 p. m. and the bombardment lasted 1 hour and 30 minutes.

During the afternoon a half starved and ragged Spanish soldier crawled into the camp and gave himself up. He said he expected to be shot, but he would gladly die if they would only give him food and water. He had had neither for 48 hours.

He reported that there were 2,000 Spanish soldiers, half starved, who wanted to give themselves up, but that they believed they would be killed by the Americans as soon as they were once in captivity.

The Spaniard was given a good dinner and some clothing and was then taken on board the Marblehead. He declared that he would gladly go back and report to his comrades, but that they would certainly shoot him. He is now held as a prisoner on the Marblehead.

The Marblehead's little steam launch cleared out a detachment of Spanish bushwhackers and escaped without the loss of a man after a hot engagement of a quarter of an hour. The launch had been dragging the harbor near the fort for mines, had found one and was towing it back to the Marblehead when the enemy concealed in the bushes on the shore, opened a hot fire on the five men in the launch.

The launch headed toward shore and began banging away, but the bow gun finally kicked overboard, carrying the gunner with it. In the meantime the enemy was fleeing wildly. The marine was promptly rescued. It is believed that several Spaniards were killed.

To Fill Up Old Regiments.

Washington, June 17.—Reports received at the adjutant general's office show that practically all the regiments now in the field, and which are to be filled to their maximum strength under the president's call for 75,000 men, have sent recruiting parties to the states from which the organizations come to obtain the necessary men for this purpose. It will require about 40,000 men to fill the existing organizations to their maximum strength.

Not Familiar With Geography.

St. Thomas, Danish West Indies, June 17.—Spanish residents here were wild with joy the other day when some wag informed them that a Spanish warship had bombarded Indianapolis from the banks of the Wahash. They hailed congratulations to Madrid.

Saved From Fire.

Marysville, Ky., June 17.—The large frame dwelling of Stephen Harrison, this county, was burned Wednesday night. The family was aroused barely in time to save their lives. The house was new and cost \$2,500. No insurance. Harrison is a well-known tobacco man.

TRIPLE TRAGEDY.

James Bartlett Kills Clarence Emery and Tillie Millet.

Tacoma, June 17.—James Bartlett has shot and killed Clarence Emery and Tillie Millet. Bartlett then blew his own brains out.

The tragedy occurred at the Donnelly hotel. Emery and Tillie Millet were eating in a private box of the restaurant when Bartlett entered and commenced shooting. The woman left at Dyke, Alaska, to live with Emery, who was a barkeeper on the steamer City of Seattle. The woman formerly lived in Seattle and was about 25 years of age.

Plenty of Applicants.

Washington, June 17.—The organization of the volunteer army made necessary the appointment from civil life of a few less than 500 staff officers and second lieutenants. The enormous amount of work entailed upon the president and the war department, particularly the adjutant general and his force, by these appointments can be imagined when it is known that for 500 appointments there were more than 21,000 applicants.

Wants the Names.

Washington, June 17.—Representative Osborne of Wyoming has introduced resolutions directing the secretary of the treasury to furnish, immediately after the disposal of \$400,000,000 bonds, the name of purchasers and banks in whose care bonds are delivered and why checks and drafts payable in Denver, Colo., are not receivable in payment for these bonds.

It Is Out of Debt.

Eureka, Ill., June 17.—Eureka college, an institution conducted under the auspices of the Disciples of Christ, celebrated its fiftieth anniversary with a jubilee meeting of its alumni at which it was announced that the \$30,000 necessary to free the institution from debt had been raised and that in addition over \$100,000 had been added to its endowment fund.

Jimenez Imprisoned.

New York, June 17.—President Heurieux of Santo Domingo cabled to an acquaintance in this city as follows: "I was at Inagua where I secured the imprisonment of Jimenez. Henriquez, minister of foreign affairs, is at Nassau actively engaged in pushing indictment. Jimenez will be declared a filibuster. The country enjoys tranquillity."

No More Fever Cases.

Washington, June 17.—Official dispatches to the marine hospital service show there have been no fresh developments in the yellow fever situation in the south. They announce the opening of Camp Fontainebleau, the detention point just out of McHenry, Miss., and that there are now 21 suspects from McHenry in the camp.

Atchison, Kan., June 17.—The Democratic state convention endorsed the entire Populist ticket.

THE BANK OF SPAIN

Has Agreed to Furnish Money to the Government.

IT WILL BE THROWN AWAY.

Telegraph Lines All Cut In Philippine Islands.

SITUATION SERIOUS IN MANILLA.

Premier Sagasta Now Admits That There Is Nothing For the Don to Jollify Over, Since the Spanish Troops Are Deserting.

Madrid, June 17.—The Bank of Spain has agreed to place 28,000,000 pesetas at the disposal of the treasury for war purposes.

A dispatch received here from the commander of the Visayas Island and Mindanao, the latter the second largest island of the Philippine group, under date of June 11, says that an envoy sent to Iloilo, island of Panay, with instructions to endeavor to communicate with Governor General Augusti, failed in his mission.

The messenger, the dispatch adds, found that the telegraph lines in the island of Luzon (of which Manila is the capital) had been cut by the insurgents and that the native militia were deserting by wholesale. The Visayas island and the island of Mindanao, however, were quiet.

A dispatch from the governor of Santiago de Cuba says nothing of a fresh nature has occurred at that place.

Premier Sagasta, upon leaving the cabinet council, said that two provinces of Luzon were still loyal to the Spanish government, but that the situation in Manila was of the most serious character.

General Linars sent emissaries from Santiago to Calmanera to make inquiries, but the roads proved almost impassable. This suggests reflections as to the probable rate of advance of the Americans, hampered by artillery and impediments and opposed by efficient and well seasoned Spanish troops.

The report that an American fleet will be sent against the peninsula causes no anxiety in Madrid, as the home ports are so well fortified.

Admiral Cervera cables that a shell from an American warship at high elevation struck the Vizcaya, but owing to her excellent armor the Spanish cruiser was not damaged.

Captain Anon, minister of marine, has returned from Cadiz and has started for Cartagena.

It is assured that an "Ironclad" which has not yet figured in any published list forms part of Admiral Camara's squadron.

Admiral Cervera cables that he has provisions enough for the fleet until autumn.

General Blanco cables from Havana that the batteries there fired on the United States cruiser Montgomery, which left the line of blockade. Eleven vessels are now blockading the port of Havana.

Anything For Assistance.

Paris, June 17.—The Temps points out that the Spanish newspapers which only Wednesday talked of the solidarity of the races and appealed for help to France now declare that every sacrifice should be made to procure the aid of the Driehund. Continuing, The Temps says: "We wish to draw the attention of those blatant and simple-minded advocates of the Latin races and a Franco-Spanish alliance to this changed mood of the Spaniards."

Ticket of Their Own.

Minneapolis, June 17.—The middle-of-the-road Populists who bolted the state Populist convention held in this city because the majority insisted upon fusion with the Democrats and silver Republicans, had a convention of their own and nominated a state ticket. Ignatius Donnelly, leader of the bolters, was endorsed for United States senator.

A Prisoner Hanged.

Sacramento, Cal., June 17.—Frank Bellew, the Dixon prisoner, was hanged at the Folsom prison. He made no confession or statement on the scaffold, but reiterated the statement he made after his arrest, in which he admitted he murdered his brother and sister because he had not received a fair share of his father's estate.

To Suspend Police Law.

Topeka, June 17.—By a vote of 380 to 322 the Populist convention decided to at once suspend the metropolitan police law.

SPANISH PROMISES

Repudiated in the Philippines and the Result.

[New York Herald.]

Spanish misrule in the Philippines is responsible for the reappearance of Gen. Aguinaldo on the scene. It is another illustration of the danger of making promises with no intention of keeping them.

Aguinaldo agreed to lay down his arms as an insurgent, and, moreover, to leave the country, provided certain much needed reforms were granted. His presence was thought to be a constant menace to the Government, and so he submitted to deportation.

But when he was well out of the way the Government imagined that his wings were clipped and proceeded to ignore every reform to which it had pledged itself. It simply laughed in its sleeve at having got rid of a powerful rebel by a nice bit of strategy.

The Government, however, threw a boomerang, and, instead of hitting Aguinaldo, it hit itself, for the General has returned and seems to be more powerful than ever. He now co-operates with Dewey and asks in return that the United States shall at least assume a protectorate and see to it that his people have fair play, security for life and property and justice in the courts.

That does not appear to be too much to ask.

The Beneficent Lemon During Hot Weather.

[Exchange.]

We know in a dull sort of way that lemons are useful, and if we didn't we might easily find this out by looking over the papers. But just how valuable they really are few of us realize. They are of very great medicinal value, and are better than patent medicines and nostrums put up in bottles and boxes for the benefit (?) of the human family.

A teaspoonful of lemon juice in a small cup of black coffee will drive away an attack of bilious headache, but it is better to use them freely and so avoid the attack of headache. A slice of lemon rubbed on the temples and back of the neck is also good for headache. These facts help in beautifying one, for who can be beautiful and ailing at the same time? The days are passed when the delicate woman with "nerves" was the heroine of all the novels and the "clinging vine" supposed to be admired by all the men.

Lemons taken externally, or rather used, will aid in beautifying any one. There is nothing more valuable for the toilet table than a solution of lemon juice; a little rubbed on the hands, face and neck at night will not only whiten but soften the skin. A paste made of magnesia and lemon juice applied to the face and hands upon lying down for a fifteen minutes' rest will bleach the skin beautifully.

For discolored or stained finger nails, a teaspoonful of lemon juice in a cup of warm soft water is invaluable; this is one of the very best manure acids. It will loosen the cuticle from the finger nails as well as remove discolorations.

Lemon juice in water is an excellent tooth wash. This is about the only thing that will remove tartar. It will also sweeten the breath.

The personal estate of the late James Rice was appraised at \$7,005.14.

EPISCOPAL CONVOCATION.

It Closed Last Night After a Very Pleasant Session.

The third semi-annual convocation of the Northern Archdeaconry of the Episcopal Diocese of Lexington closed last night after a very pleasant session at the Church of the Nativity. The Archdeacon, Rev. W. G. McCready, of Newport, presided over the sessions.

The meeting convened Wednesday, and during the sessions interesting and instructive papers were read and addresses delivered on various topics concerning the welfare and growth of the church.

Among the subjects considered were "Systematic Giving," "The Woman's Auxiliary a Blessing to Both the Worker and the Beneficiary," "The Hope Newborn in the Diocese by the Success of the Woman's Auxiliary," "The Sunday School the Nursery of the Church," "The Secret of a Large and Live School," "The Proposed Changes in the Constitution and Canons of the Church."

The speakers on Thursday's program were Rev. D. D. Chapin, of this city, Rev. R. G. Noland and Rev. R. S. Coupland, of Covington, Mr. Wm. H. Cox, of this city, Rev. Rolla Dyer, of Dayton, and Rev. F. A. Ridout, of Cynthiana.

The session closed with an interesting address by Bishop Burton, on the results of the convocation.

Fremont Park.

All kinds of opposition doesn't seem to materially effect the attendance, for over two hundred were present last night. The work of the Kline children is particularly pleasing. Prof. Stricklin on the slack wire performs some difficult feats. "Mile." Maxine rendered new songs that at once proved her equally clever in a singing turn. Ben Turpin's repertoire seems never to exhaust. Geo. Edwards, the new comedian, was well received. The dog circus continues to amuse, and the whole program is an attractive one, and sure to please all who are in search of an evening of entertainment and pleasure.

THAT METEOR

It Tore a Big Hole in the Earth Over Near Chillicothe, Ohio.

CHILLICOTHE, O., June 11.—Imbedded deep in the soil of Hiram Davis' farm near Storm's Station, this county, lies the remarkable meteor, whose appearance last Friday was noted at Bainbridge, Washington C. H., Waverly, Jackson and many other places. That the meteor is an immense one is proved by the fact that it plowed up nearly two acres of ground where it struck the earth.

It was just at noon last Friday that the meteor entered the atmosphere, and the fiery trail it left behind it through the heavens as it fell was seen by many persons all over this portion of the State. The noise of its rushing through the air was so great that the houses were shaken and the windows rattled as far away as Cynthiana, Pike County.

It fell in a field belonging to Hiram Davis, near Storm's Station. Apparently it had not caught the rotary motion of the earth in its fall through the atmosphere, and for 200 yards or more it plowed along the surface. Then it buried itself deep into the ground, leaving only the entrance to the hole, over four feet in diameter, behind it. Large crowds of curious people have visited the place since the meteor fell, and an effort is to be made to dig it up.

Friday's Cash Sale.

UMBRELLA TALK.—An umbrella in the hand is worth two in the store—when that store is blocks away and it's raining torrents. There are two kinds of Umbrellas; one you buy, the other you borrow. If uncomplimentary facts may be recorded we believe the latter kind most popular. In selecting an umbrella look to the name of the maker. That's the secret of our successful umbrella business. We buy of manufacturers who guarantee their goods to us and we in turn guarantee them to our customers. Low prices alone are no attraction. It's not getting things cheap; it's getting good things cheap. Everything here is cheap; some are very cheap, but they had to be something more than cheap first. That's the strong point in the Umbrellas we offer Friday. It's merit, style and value for the money every-body wants, even in Umbrellas, and if you come here you'll get it. We won't insist upon you purchasing; we won't urge you, but the kind we'll have Friday will be welcomed by all as the chief coin-clincher of the city. Coriolla Silk Umbrellas, steel rods, slender ferules, silk tassels and cases, handles of many patterns. Choice for Friday only \$1. After that the regular \$1.50. Don't think the 50c. difference between sale and regular price represents our profit. We don't get 50 per cent. on Umbrellas. We've gone into the cost on these as the wisest advertising of the season.

It certainly looks like it, but there is really no trick about it. Anybody can try it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. CAPTURED THE TOWN,

Did the Red Men Last Night, and Scalped a Pale Face on Fountain Square.

The Red Men had a great time last night. The warriors, with war paint on, swooped down on Maysville and held the city for several hours.

It was Wyandotte Tribe's third anniversary, and the tribes from Manchester, Bradyville, Augusta and Minerva joined in the celebration.

The Manchester warriors came down on the steamer M. P. Wells, and the Augusta braves came up on the Rob Roy.

The route of the parade was lighted up with red fire, the warriors painting the city a brilliant hue. The Uniform Rank of Manchester led the procession and presented a very fine appearance. They were followed by a long line of braves on horseback.

After the parade there was a war dance on Market street esplanade, and a pale face was "scalped," Doc. Wallace being the victim. He was then dumped into the fountain, but managed to crawl out.

During the evening the secret work of the order was exemplified at the Wigwam and the celebration closed with the tired braves sitting down to a feast of "corn and venison" and other good things at the St. Charles Hotel.

COMING TO MAYSVILLE.

Adjutant Carroll Power May Be Here To Get Recruits For the Kentucky Regiments.

The mustering for the Second Kentucky regiment was opened by Adjutant Carroll Power and his assistants at the Hotel Reed, Lexington, Wednesday morning, and the examination and mustering in of recruits was begun. About twenty applicants presented themselves that day to be mustered.

Adjutant Power is doing the examining himself, as the instructions did not authorize him to employ a regular physician. The recruits will also be examined by the regimental surgeons after they reach Chickamauga, and if any accepted are turned down there Adjutant Power will have to stand the cost of their transportation, and for that reason he is very particular.

The recruiting force will remain at Lexington until the latter part of next week, after which they will go to Maysville, says a dispatch.

The men are being recruited to bring the regiment up to the required number.

A DISPATCH says the prospects for the extension of the Cincinnati, Georgetown and Portsmouth railroad from Georgetown to West Union continue to grow brighter. The company has agreed to guarantee 100 days' work to each person who donates twenty-five days subscription, and a great many are taking advantage of the opportunity to secure a permanent job for the summer and fall. The amount of subscription money and work asked for by the company will have been raised by the last of this week, and it is stated that construction will begin by July 1st. It is the intention of the company to complete the road by December 1st.

Quick Work By the New Fire Laddies. The new Limestone Fire Company did some quick work at the fire this week at Col. Fremont's. Messrs. R. V. Dryden and C. W. B. Holliday, two of the members, were at Third and Main streets when they discovered the smoke. Four and a half minutes later, assisted by a few other members and some outsiders, they had the hose attached and water turned on. In ten minutes they had the fire under control. The adjoining house, only eight feet distant, was not damaged at all.

NEGRO FIEND LYNCHED

An Unknown Mob Makes Very Short Work of Him.

IT WAS AN ORDERLY CROWD.

No Shots Were Fired Into the Body, but a Few Were Let Loose Into the Air After the Good Work Had Been Done.

Glasgow, Ky., June 17.—At 1 o'clock Thursday morning 50 men rode into Glasgow, proceeded to the jail, forced an entrance by overpowering Jailer Carter, and, taking Caleb Gaines, 18, the negro assailant of little Ethel Allen, white, from his cell, dragged him out and lynched him in the public square.

The men, some of whom were masked, had the assistance of a trusty in the jail, who opened the cell doors for them. The mob had previously taken Jailer Carter's keys from him at the rear door of the jail.

A rope soon encircled Gaines' neck, and screaming, praying and struggling by turns, he was hauled along to the public square.

The entire proceeding, from the entrance of the mob to the accomplishment of its design, was but the work of half an hour.

Before leaving town the mob fired several hundred shots with the threat that if anybody should cut the boy's body down before 12 o'clock noon he would meet with rough treatment.

After the assault Gaines was captured near Oil City Wednesday morning. The father of the child tried to kill him, but was prevented.

His captors then wanted to lynch Gaines on the spot, but Mrs. Allen, the child's mother, deterred them.

Gaines was then driven along five miles with a rope about his neck to Glasgow and jailed.

Gaines was hanged to a maple tree with his feet a foot from the ground. Not a shot was fired into the body. The mob left nothing to identify them.

Killed in a Runaway.

Bedford, Ind., June 17.—While driving homeward from a call on a married daughter, John R. Allen, a prominent resident of this city, was thrown out in a runaway accident, and his neck was broken, death resulting. Mr. Inman, who accompanied him, escaped by jumping. Mr. Allen was 71 years old.

Huntington, Ind., June 17.—The one-year-old child of Frank Elchert of Bippus, this county, strayed from home and was playing on the Chicago and Erie railroad track, when the fast express train came along and ground it to pieces.

Prerogative of the Crown.

London, June 17.—In the house of commons, replying to a question relative to the power of the government of Canada to expel Spanish agents from that country, Sir Richard Webster, the attorney general, said that under ordinary circumstances the power to deal with such matters was a prerogative of the crown.

The Sultan Satisfied.

Constantinople, June 17.—The sultan has given notification of his approval of the appointment of Oscar S. Straus of New York as United States minister to Turkey, in succession to Dr. James B. Angell, resigned.

Bonds Are in Demand.

New York, June 17.—There is no abatement in the demand for the new war bonds. Experts agree that the total of individual subscriptions will not exceed the \$10,000,000 mark.

The man who stands idly by and sees the life fading out of his wife's face, sees her health going, sees her becoming old and faded and wrinkled when she should still be in the perfect enjoyment of vigorous, useful health, is either less than a man or else does not know of the one remedy which will bring her back to health and strength. Perhaps her husband cannot persuade her to go to her doctor, because she naturally dreads the inevitable "examinations" and "local treatments." He can persuade her, if she needs persuasion, to take Dr. Pierce's Favorite Prescription. This truly wonderful medicine has cured hundreds of women after the best physicians have failed. It has been in constant use and tested every day for thirty years. It isn't an experiment, there are no chances about it. It is a certain cure for all derangements, weaknesses, irregularities and displacements of internal organs peculiar to women.

An Objection Entered.

Pawtucket, R. I., June 17.—Patrick Clarke of Central Falls has engaged an attorney to enter objection to the commuting of the sentence of death on Salter D. Worden, to life imprisonment by Governor Budd of California. Mr. Clark's son Patrick, a member of battery L, Fifth artillery, of California, was killed in a wreck near Sacramento, in 1894, the train which he and other soldiers were guarding being wrecked by the striking employees of the Southern Pacific Railroad company.

PITHY POINTS.

It's no sign that a man is overloaded with religion that he can hop nimbly from one church to another.

It is not a sign that a man is wise because he closes his eyes to the rum traffic.

The liquor traffic takes a man's body and makes it the body of a beast, and takes his soul and fits it for hell.

One non-church member working against the whisky evil counts for more than all the whisky selling church members in the State.

A man's life here and for eternity is just what he makes it himself; good and evil are before him and his choice is voluntary; he isn't compelled to drink or sell whisky, either of which will surely land him in hell.

In some places a man who drinks whisky will not be received into the army! Drunkards and drunkard makers are fit for nothing here or hereafter except as commissaries of the Evil One.

What a beautiful polish whisky puts upon a lazy, trifling man!

It were better for a man never to have been born than that he should make a drunkard out of your boy or mine, and yet that is the intent and aim of the villainous traffic.

Some of the people can be fooled all the time, and all of the people can be fooled some of the time, but you can't fool all of the people all the time about the villainy wrought by the whisky traffic.

If a drunken man has got to kill any one it's no more than fair to open out on the one who furnished him with the craze producing liquor.

CADY'S ART STUDIO.

A beauty screen your shirt front will prove to be when it is laundered at the Power Laundry. A man feels like somebody when he can unconsciously himself behind a shirt front that looks like new every day in the week, or don a collar or cuff that is as perfect as if bought that day, every time he arrays himself in linen "done up" here. Our laundry work is perfect.
